

# USER STORY

Study**For**You

**Abstract** This document provides an overview of the project description of a feature in the system which is being developed. The most important thing about user stories is the fact that they're told from the perspective of the user; the person who will be using that capability.

User Story. INTRODUCTION

What is StudyForYou?

Types of users:

User

Staff University

Business Owner

Support

Admin

## **User Story. INTRODUCTION**

The purpose of this User Story is to describe the process of running a site on a CRM from a user.

### **What is StudyForYou?**

StudyForYou Education is an educational platform for studying abroad, which was created by the company Stadifa Group, with the aim of helping the applicant at all stages: from choosing an educational program/educational institution to successful admission and adaptation.

With the help of this platform you will be able to:

- Choose the desired educational program
- Choose a hostel for living
- Learn as much as possible about foreign educational institutions
- Compare educational institutions
- Prepare for the admission process and obtain a visa
- Get full support for students under the "Student Support" project

### **Types of users:**

- User
- Staff University
- Business Owner
- Support
- Admin

<b>User</b>

Module Name	Story	
	Action	Reason
Preview	I want to be able to view information about the website	So that I can get acquainted with its work and the direction of work
	I want to view information about StudyForYou	So that I can register and add the university to my favorite
	I want to view information about StudyForYou	So that I can register and subscribe to company services
Register	I want to register for the StudyForYou by entering email, password and confirming my password	So that I can receive an email with a unique confirmation link
	I want to easy registration form on the site	So in order to register easily
	I want the site to remember my password for convenience	So that I don't have to re-enter it every time I log in
	I want to be able to login with Facebook	So that I can log in into my account in Facebook and automatically registered in StudyForYou
Feedback	I want to able to submit feedback	So that the website owners can consider my opinion or concern during future website updates
	I want to be able to write comments on the university	So I can leave a review for it
Profile	I want to view my account information	So that I can update my account details
	I want to update my account information	So that I can stay relevant and ensure

	I want to add photos to my account	So that I can make my profile more
	I want to change the photo in my account	So that I can make my profile better
Log out	I want to Log out of my account on the site	So that I can stop working on the site
Search	I want to search for information	So that I can subscribe to the selected
	I want to search by country name	So to find the university or hostel I need
	I want to search by field of science	So to find the university or hostel I need
	I want to search by name	So to find the university or hostel I need
	I want a separate search by the name of the university of the specialty or preparatory courses	So that I can quickly find what I need
Notification	I want to view notifications in my account	So that I don't miss service announcement notifications
	I want to receive notifications from universities	So that I can not miss them
Prices	I want to see university prices	So that I can navigate the price
	I want to see price statistics	So I can view it

Wishlist	I want to be able to add favorite services to the wishlist	So that I can get back to them quickly
Feedback	I would like to send feedback about the university or hostels	So that owners can take my opinions or concerns into consideration for better work
	I want to be able to submit feedback	So that owners can consider my opinion or concern during future website updates
	I Would like to rate the university	So that the users can choose a university by rating
Staff University		
Module name	Story	
	Action	Reason
Log in	I want to log in to the StudyForYou by entering my email and password	So that I can find access to my personal profile
	I want to log in into the StudyForYou through Google, if I previously registered with it	So that I can find access to my personal profile
	I want to log in into the StudyForYou through Facebook if I previously registered with it	So that I can find access to my personal profile
	I want to be able to sign in to a website So that I can find access my personal profile	So that I can find access to my personal profile

	I want to be able to reset my password if I forgot my password	So that I can reset my password and set another password
Log out	I want to Log out of my account on the site	So that I can stop working on the site
Profile	I want to view my account information	So that I can update the account details
	I want to update my account information	So that I can stay relevant and ensure
	I want to add photos to my account	So that I can make my profile more
	I want to change the photo in my account	So that I can make my profile better
Search	I want to be able to search on the webpage	So that I can find the necessary information
	I want to select an educational institution	So that I can view the educational institution details
	I want to be able to search for an educational institution in a certain country	So that I can select the educational institution in a certain country
	I want to be able to search for an educational institution in a specific field of study	So that I can select the educational institution in a specific field of study
Notification	I want to view notifications in my account	So that I don't miss service announcement notifications

	I want to receive notifications from universities	So that I can not miss them
Wishlist	I want to be able to add favorite services to the wishlist	So that I can get back to them quickly
Feedback	I would like to send feedback about the university or hostels	So that owners can take my opinions or concerns into consideration for better work

	I want to see the number of students studying at the university	So I can view them
Service	I want to be able to receive a notification about service booking and can approve or reject a booking	So that the clients will know if they can booking services
Task	I want to view the list of university task	So that I can know what time is booked
	I want to be able to add/edit/delete	So that I can change if the client wants

## **USE CASES. INTRODUCTION**

**A use case is a written description of how the different users will perform tasks on the system.**

**It outlines, from a user's point of view, a system's behavior as it responds to a request. Each use**

**case is represented as a sequence of simple steps, beginning with a user's goal and ending when**

**that goal is fulfilled.**

**Use cases add value because they help explain how the system should behave and in the**

**process, they also help brainstorm what could go wrong.**

### **Uses of the Documents:**

- Developers use the documents for implementing the code and designing it.**
- Testers use them for creating test cases.**
- Business stakeholders use the document for understanding the software requirements.**

### **Elements in Use Cases:**

- 1. Use case description: A brief description explaining the case.**
- 2. Actor: Users that are involved in Use Cases Actions.**
- 3. Main Scenarios: or 'Basic Flow' is the normal workflow in the system. It is the flow of transactions done by the Actors on accomplishing their goals. When the actors interact with the**

**system, as it's the normal workflow, there won't be any error and the Actors will get the expected**

**output.**

**4. Alternate flow: Apart from the normal workflow, a system can also have an 'Alternate workflow'.**

**This is the less common interaction done by a user with the system.**

**5. Exception flow: The flow that prevents a user from achieving the goal.**

Use Case Name	Registr	
Description	A user Registration to System	
Actors	User, Staff University, Busines Owner, Support, Admin	
Main Scenarios	Serial No	Steps
Actors	1	Enter User Name
	2	Enter Email address
	3	Enter Password
	4	Validate Password
	5	Allow access to System

Use Case Name	Password recovery	
Description	The user resets the password	
Actors	User, Staff University, Busines Owner, Support, Admin	
Main Scenarios	Serial No	Steps

Actors	1	Enter the password recovery
	2	Enter the Email address
	3	Check the Email
	4	Enter a new password
	5	The user logs in

Use Case Name	Search for a university by name	
Description	A user searches for a university by name	
Actors	User, Staff University, Business Owner, Support, Admin	
Main Scenarios	Serial No	Steps
Actors	1	The user logs in at the StudyForYou
	2	The user selects a country
	3	The user selects a field of science
	4	The user enters the name of the university
	5	The user clicks the search button

Use Case Name	Search for a university by specialty	
Description	The user searches for a university by specialty	
Actors	User, Staff University, Business Owner, Support, Admin	
Main Scenarios	Serial No	Steps
Actors	1	The user logs in at the StudyForYou
	2	The user selects a country
	3	The user selects the training level

	4	The user enters the name of the university
	5	The user clicks the search button

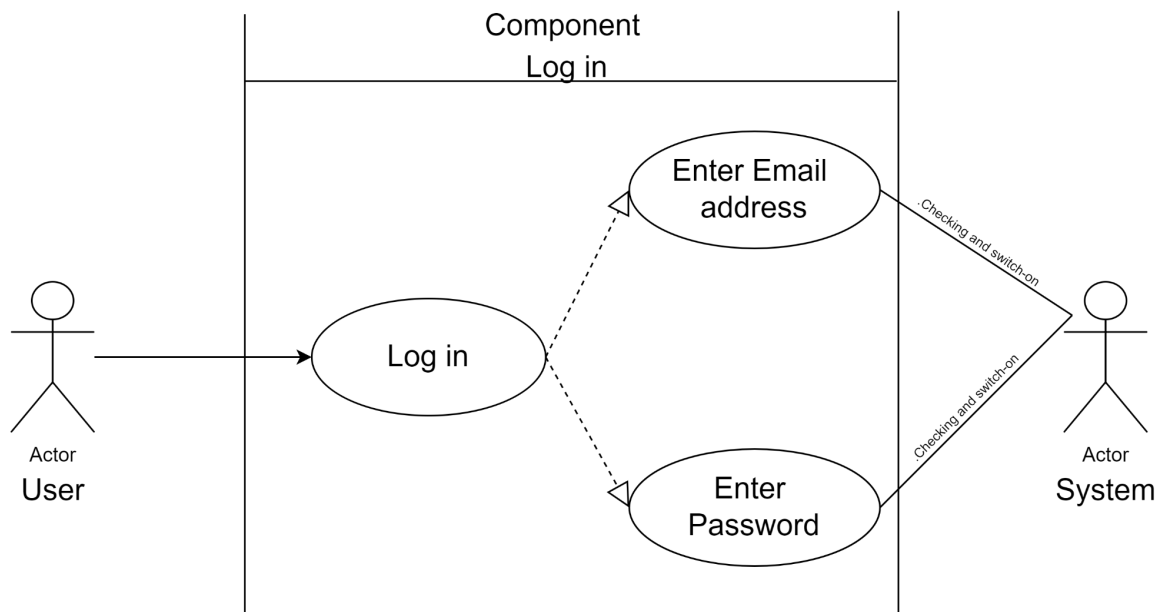

Use Case Name	Filter in the university directory	
Description	The user uses the filter	
Actors	User, Staff University, Busines Owner, Support, Admin	
Main Scenarios	Serial No	Steps
Actors	1	The user logs in at the StudyForYou
	2	The user goes to the university directory
	3	The user selects a field of science
	4	The user selects a country
	5	The user selects a city
	6	The user selects the language of instruction
	7	The user selects the status of the university

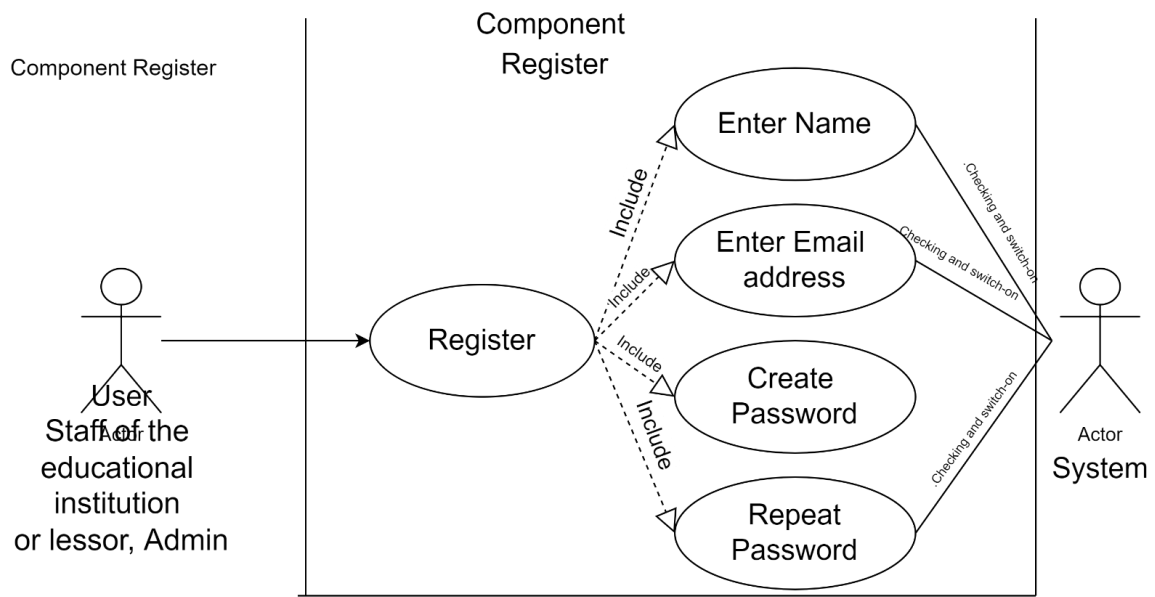

Use Case Name	Notification	
Description	User checks notifications	
Actors	User, Staff University, Busines Owner, Support, Admin	
Main Scenarios	Serial No	Steps
Actors	1	The user logs in at the StudyForYou
	2	The user click on notification button
	3	The system shows the available notification

Use Case Name	Log out	
Description	User exits the system	
Actors	User, Staff University, Busines Owner, Support, Admin	
Main Scenarios	Serial No	Steps
Actors	1	The user logs in at the StudyForYou
	2	The user click on Log out button
	3	The system drops his session on the StudyForYou

# USE CASE DIAGRAM. INTRODUCTION

While a use case itself might drill into a lot of detail about every possibility, a use-case diagram can help to provide a higher-level view of the system. The diagram provides a simplified and graphical representation of what the system must actually do.
